CONCORD
TERRAZZO
COMPANY

Concord Terrazzo Company offers terrazzo samples at no cost to the architectural and design community.

ENDLESS POSSIBILITIES

Terrazzo consists of marble, glass, granite and/or shell chips mixed together in an resinous matrix binder. Epoxy terrazzo is poured, cured, ground and polished, and is used in various indoor finishes such as floors, stairs, countertops and walls. One of the advantages of epoxy terrazzo is its unlimited range of colors. Its design flexibility allows for artistic creations, and maintains good color uniformity on large installation projects.

In addition to a wide range of colors to choose from, there is also a great selection of aggregates. Aggregates vary in size which creates even more unique design combinations. Marble chips are a traditional source of aggregate; however, with the increasing interest of green construction, recycled aggregates like glass are a favorable option. Glass offers vibrant colors, adding brilliance to any terrazzo surface. Crushed mirror can add reflectiveness to a design as well.

There are infinite designs combinations you can create with epoxy terrazzo. Concord Terrazzo Company representatives work closely with building owners and architects to design terrazzo samples that meets the goals for their upcoming projects.

WHY CHOOSE TERRAZZCO?

- Concord Terrazzo Company is a single-source terrazzo supplier, the only terrazzo company where you can design terrazzo floors and precast terrazzo products with materials from one location.
- We pride ourselves in delivering a quality green terrazzo finish. All TERRAZZCO epoxy resins are GREENGUARD certified tested and proven to have zero VOCs. We even have an in-house recycling facility where we crush and package post-industrial aggregates.
- We offer more design capabilities than other terrazzo manufacturers. From waterjet cutting, precast manufacturing, and sample matching, we offer many solutions that adds value for your construction projects.

ABOUT TERRAZZCO SAMPLES

Concord Terrazzo Company specializes in epoxy terrazzo for institutional, commercial and industrial projects. Our team is passionate about terrazzo and love working with architects and designers in selecting the right colors and aggregates for their designs. As a result, Concord Terrazzo Company offers design consultation and a sample service at no cost to the architectural and design community.

Our samples guide will help you become familiar with our sample series. The following are the collections we currently offer:

- Standard Architectural Hard Sample Collection
- Semi-Exotic Architectural Hard Sample Collection
- Exotic Architectural Hard Sample Collection
- Designer Series
- Monochrome Series
- Aggregate Series

All terrazzo samples from the TERRAZZCO sample collections are made-to-order at 3/8" thickness and 6"x 6" dimensions. Our design team handles samples with great quality and care, with a quick turnaround time of two weeks or less.

**YOU DREAM.
WE CREATE.**

CREATE A CUSTOM DESIGN

Architects and designers have the option of creating a custom terrazzo sample that aligns more closely to their project's design needs. Architects can combine any number of TERRAZZCO marble, glass, and shell aggregate with virtually any epoxy color. Try experimenting with different aggregate sizes from micro to venetian styles or reviewing samples under different polish levels. Share your design specifications with our Concord Terrazzo company representatives and our team will recommend materials that meet within your budget.

DESIGN AND BUILD WITH TERRAZZO

Concord Terrazzo Company works closely with general contractors, architects and design-build firms in delivering a quality terrazzo finish. Our single-source positioning encourages innovation and collaboration among architects and building owners and helps them in saving time and money.

We provide great value to architectural projects through flexibility. Flexibility starts with architects selecting and reviewing samples, and converting those designs into high-quality terrazzo finishes. Concord Terrazzo Company has the ability to supply all the materials to install an epoxy terrazzo floor, and can manufacture precast terrazzo materials including stair treads, countertops, and wall base. Concord Terrazzo Company's waterjet service adds more customization for projects as architects can explore artistic creations with detailed patterns or a centerpiece logo.

With all materials housed in one central location, Concord Terrazzo Company has the ability to effectively fast-track projects and supply epoxy, aggregates and other materials at budget-friendly pricing. Our single-source structure is designed to bring success to your projects.

BENEFITS OF A DESIGN/BUILD PROJECT WITH TERRAZZO BRAND PRODUCTS

Our Single-Source Supply Supports:

- Enhanced Quality and Control
- Customization of Products
- Faster Project Completion
- Reduced Costs

START DESIGNING WITH TERRAZZCO

Terrazzo is one of the most versatile flooring finishes on the market with a unlimited color palette. Concord Terrazzo Company is happy to assist you in your next project.

WHO WE SERVICE

Samples are free of charge for architects and designers only.

HOW SAMPLES ARE MADE

Samples are made-to-order at 6"x6". If none of the terrazzo samples from our collection meets your design needs, our Concord Terrazzo Company representatives can assist you in designing a custom sample. We can match samples with any desired selection of aggregates with an epoxy resin that matches any pantone color. Architects and designers can design a custom sample that varies in chip sizes: micro, standard, and venetian.

HOW TO ORDER:

To request samples:

1) Visit www.terrazzco.com and complete our samples form
